

DEVANEY DOAK & GARRETT BOOKSELLERS

DDG's Ahead of the Curve Subscription Service

An Advanced Book Ordering Service from
Your local bookstore and educational partner

At DDG we take great pride in working with Central Maine's schools to provide the finest quality books released each year for classroom and library use. Our principal buyer, Kenny Brechner, has been nationally recognized for his expertise on community outreach ([The Pannell Award](#)), and [The MSBA Business Friend of Education Award](#). As we move forward DDG will be providing our Ahead of the Curve Subscribers the best selections of new releases available. Here is how the program works.

- ❖ Schools purchase a subscription at the beginning of the school year. Subscriptions are available from \$500 to \$5,000 in increments of \$250
- ❖ All selected program titles are processed at 20% off, thus a \$1,000 subscriber receives \$1,250 of books

Here is what the program offers.

- Suggested titles sent through our Educator's Forum and Weekly Top 2 Newsletters.
- Suggested titles provided on our featured new release title lists.
- In store new release displays which allow educators to examine books before selection.
- 32 years of DDG book search expertise and industry knowledge.
- Any other new release, classic, or subject specific titles outside the selection lists or in store displays may be added to the program at any time by participants.
- Automated, real time, title specific accounting.

As always we look forward to working with you to support our schools and our local economy. Contact us anytime to enroll or with questions.
